

Why is Steiner/Waldorf the fastest-growing school movement worldwide?

Jennifer Anniston went to one. Tilda Swinton's twins go to one. Parents of children in 1,000 schools & 1,400 preschools in 60 countries worldwide have discovered – Waldorf works.

THE LIBERTY STEINER/WALDORF INITIATIVE is a growing group of parents, working to found a Steiner/Waldorf school in Dublin City.

A HANDS-ON lecture, by an important educator about why academics brought too early to children is not good, and how a truly holistic education can prepare them to become young people who embrace the future with enthusiasm, compassion, and deep interest in the world.

Jonathan is Director of Irish Steiner Teacher Training Programme of the Healing Education & Resource Teacher Training, for which he adapted Steiner teaching methods.
